

MT480 MITRE SAW FOR ALUMINIUM

The new **MT480** aluminum saw adds practical features to **MT470**, as well as a new design of presser.

MT480 increase the **MT470** cutting capacity. It allows to cut all that range of profiles (see draw) as well the profiles described with **MT470**. A new fastening system holds the piece firmly and quickly, and gets a better work.

- 1 Press handle
- 2 Nylon presser
- 3 Transparent protection
- 4 Angle selector handle
- 5 Waste ramp
- 6 Angle selector handle
- 7 Waste Exit
